

SWISS VOLKSWAGEN ALLOY WHEELS

Fine Quality OEM German Alloy Wheels
FREE FITTING ON ON NEW VOLKSWAGEN SOLD

GERMAN QUALITY GUARANTEE

Our entire range of alloy wheels is guaranteed to be suitable for van and commercial use.

Load ratings are up to 950KG per wheel which in most cases, is far stronger than the factory alloys.

Special Van Tyres

All tyres supplied are multi-ply, specially made with stronger cross walls, for van use and commercial use.

Durable Finish

All our OEM alloys are made to last, and designed not to crack, bubble or flake.

Many cheaper alloys simply will not look as good in 12 months of hot summers and salty winters.

Full Range Volkswagen

Approved Alloys

We also supply and fit the whole range of VW approved alloy wheels for our vans.

PRICING

OEM DISCOUNTS

Van manufacturers do not make their own alloy wheels in most cases.

They order from the same factories as us and increase the price.

We simply cut the van manufacturer out of the sale to save you up to 50% on the cost of each wheel.

Guarantees

Almost all of our alloys are specially strengthened and powder lacquer coated for durability. Guarantees range from 12 - 24 months.

Many alloys are TUV approved which is an independent German quality assessment awarded to very few wheels and manufacturers.
